Subject: Alpine Lake Ops

(b) (6),

BLUF: Adaptive Force Package from EODMU3 executed search operations today in Alpine Lake Reservoir. The operation is a body search for a child then fell off a boat during weekend boating activities. Det SW was asked to support, in coordination with lifeguards, police, and other civilian entities. 6pax from MDS CO 3-1 augmented with towed sonar and SEABOT.

\*\*Update: Det SW Seabot OCU went down hard. They RTB and will work with ESU1 to remedy. MDS 3-1 is still at the lake doing work. So far, nothing found.

Subject: Alpine Lake Ops\_15Aug update

(b) (6),

MDS 3-1 pulled in off the water at 1940 last night and ceased ops for period of darkness. They headed back out this morning at 0730 to resume work. Approx. 0900 this morning they located her with their towfish, PD recovered the body.

#### Equipment issues:

- Currently, MDS CO 3-1 Seabot is stuck in a tree at 148fsw. They are working to free it.
- Det SW Seabot suffered an OCU casualty yesterday. They are at ESU1 trying to get a fix. If they get is FMC or swapped out, goal is to get it out there to help free MDS CO Seabot.
- Divers aren't recommended for use yet because of ORM. (Lots of debris in the water and altitude diving.) Team is fairly confident they can free all equipment without splashing divers.

Any changes or when everyone is RTB, I'll let you know.

CDRE,

5Ws WRT DETSW providing support to civilian law enforcement:

Background: 12 y/o girl (civilian) suffered boating accident over the weekend at San Vicente Reservoir near Alpine, CA. She fell from a boat Saturday and did not resurface. We received request to provide support Monday morning, which was vectored through Region Dispatch / DETSW channels to respond.

Who: EOD DETSW w/ 6x PAX augments from MDS 3-1

What: Conducting search operations utilizing towed sonar and SEABOT ROV

Where: San Vicente Reservoir, Alpine

When: On station at 1000 today / ongoing

Why: Support with active search efforts ICW local LE, harbor police, lifeguards, etc.

\*\*Latest update from MU3 / Shore Det: Nothing found as of 1530, efforts still ongoing. This does have media attention – link to one of the articles pasted below. MDS 3-1 is the PTDO CO, C3F notified of their involvement\*\*

Recommend you pass this to all shore det OIC's. Additionally Joint Knowledge Online has a DSCA phase 1 course that is a good overview on the process.
